### 3. Pineapple Quilt

The Pineapple Block has been a favorite for many years, however it looks fairly complex to put together. We are making it very simple to make this quilt by using a ruler specifically designed to make a pineapple block. I used the ruler when making the sample and found the ruler to be so beneficial for this project. In the class we will make sixteen blocks but you can make yours any size you like. Pick a specific colour theme or do as I did just random colours.

#### 4. Chevron Tote Bag

In this class we will be making a Tote Bag designed with chevron panels on each side. This tote bag is not complex and would be a great class to take if you feel a bit intimidated when it comes to making a tote bag. This one sews up so nicely and can be made using co-ordinated fabrics or scraps. The choice is yours. The pattern will be supplied.

## 5. Paper Piecing 101

In this class we will be making a Table topper that uses the paper piecing method. If you have not tried this technique before, this project is a great way to give it a try and learn a new technique. Choose as few as three fabrics or as many as twenty three fabrics, the choice is yours. This project only calls for four paper pieced blocks so it is not intimidating. Section by section watch your project come to life.

Orientation: Nov 28<sup>th</sup>

10 – 11 am

Classes: Dec 5<sup>th</sup> and 12<sup>th</sup>

9:30 – 12:30 pm

## 6. Pin Cushion Collage

Join us for this project which is made using the collage technique. This technique is similar to raw edge applique but a lot more fun. Be creative and find a use for all those flowery fabrics you don't know what to do with. The class sample has approx. 30 different fabrics in it. You don't need a lot of each fabric, but you do need lots of different fabrics. But not to worry if you don't have all of them we can help you out with that as well. You will be required to purchase the pattern for this class.

Orientation: Oct 1

10 – 12

Class: Oct 15<sup>th</sup>, 22<sup>nd</sup> and 29<sup>th</sup>

## 7. Hexagon Christmas Runner

In this class we will be making a hexagon runner for Christmas. The technique used in this project allows the whole project to be sewn on your machine, no hand sewing at all. Make this as small or as big as you wish. The end result will look very festive. This is another class where you can use your Christmas scraps left from previous projects or you can coordinate your colours to suit any décor. You will be required to purchase the pattern for this project.

Orientation: Nov 7<sup>th</sup>

10 -11

Class: Nov 14<sup>th</sup> and 21<sup>st</sup>

9:30 – 12:30

Cost: \$50 plus supplies

## 8. Christmas Placemats

We've chosen to make our sample out of Christmas fabrics but you can choose anything you would like. The pattern for this project includes a table runner; however in the class we will only be making four placemats. Using a long ruler and your cutting mat, these placemats go together quickly. Eight different fabrics are required for this project. Fabrics are cut into 2 ½" strips so if you've got some left over strips from other projects and you want your placemats scrappy looking, you can use up what you already have.

Orientation: Nov 20<sup>th</sup>
